COMMERCIAL MATTERS.

Raice at the Stock Exchange June 25.

| Second | Solar | Sol

TUESDAY, June 25-P. M. There was no salient feature in the stock market to-day. With a moderate amount of activity, the market showed an increased firmness, and in some sees advanced quotations were established. The absence of unfavorable advices from the seat of war, and the current rumors of an attempt on the part of the Confederate leaders to arrive at some basis of arrangement with the Federal Government, had an encouraging influence upon operators, and there was more disposition to take lines for the rise. The advance however, in prices of shares was not important, and at the slose of the call the buoyancy was lost. Border-State socks had an advancing tendency, the shorts buying beely, under the fear that the surply will be materially advoced by the closing of the Illineis Auditor's office until the 10th of July. There are also some orders bere from citizens of the Border States, who have con-

idence in the ultimate value of the bonds. The largest dvance was in North Carolinas, which improved 5 per cent, under purchases of only \$7,000, selling at 501 Agains 45 yesterday. Tennessees improved 2 per cent.
Virginias 12, and Missouris 1 per cent. Prices were weak, however, at the close. The improvement in the share market ranged from an 1 to 1 per ecut. Between the boards the movement was very limited and quotations heavy. At the Second Board he market was irregular, and the business in theres unusually limited, and confined to three descriptions. New-York Central was | P cent lower, and Galens, under large traffic report for the third week, P cont higher. Other descriptions were offered in some cases at a little concession on morning rates. In Berder State bonds the transactions were quite large, but generally at lower rates. Tennessees declined 4 & cox, North Carolinas 1 & cent, Virginius 1 & cent, &c., and closed heavy. After the regular session in the treet there was very little done, and the market was dightly yielding. The latest quotations are: Tensessee is, 381 #334; Virginia 6s, 401 #401; Missouri 6s, 38, #332; Cumberland Cosl, 47 #55; Pacific Mail Scennship Co., 6 [2 60]; New-York Central Railroad, 12 6 72; Eric Railroad, 2 [2 23; Hudson River Rail-road, 3 [2 32]; Harlem Railroad, 8 [2 24; Harlem Railroad, Peferred, 21/2221; Reading Radroad, 33233;; Michigan Central Railroad, 42/2421; Michigan South

Quincy Railroad, 553 2563.
The freign bill market has been dull for this steamer, but rates are steady, especially for commercial bills. The only demand appeared to be from bankers, and the high race at which outside signatures were held checked transactions Sterling is 105 2 106, with no transactions of importance above 105; \$\psi\$ cent. France

ern and Northern Indiana R dirend, 1: 2 191; Michigan

Freights-To Liverpool, 22,030 bush. Corn and D,000 bush. Wheat, in ship's lags, at 71d.; 2,500 bbls. Floor at 1s 3d, @1s. 6d.; 200 page. Lard at 20s. Per seamer, 15.000 bush. Grain, in brgs, at 84d. for Corn, 00 pkgs. Patter, and Cheese at 55s., and 100 boxes Bacon at 45s. To London; 15 hbds. Tol a co at 37s. 6d.; 33,000 bush. Wheat at \$4. in bulk, and 8id. in bars, and 3,000 bbls. Floor at 5. 4jd. 22s. cd. To Glasgow: 12,000 bush. Wheat at M., in ship's bags, and 1,500 bble. Flour at 2s. 41d. 2 b. 9d. To Hamburg: 80 tuns Logwood at 27s. 6d. In charters we hear of a foreign vessel to Bristol with 25,000 bush. Wheat at 1st. in tulk. A Portuguese brig for Falmouth with 8,000 bush. Wheat at 94d. in bulk; ischener of 100 tuns to the West Indies and Inck for \$300, and a vessel of 1,400 bbls capacity for the mme voyage at \$1 per bid.

The business of the Sub-Treasury was: Receipte \$23,529 18-for Customs, \$16,000; Payments, \$594,-705 50; Balance, \$7,46,030 03.

There were no gold returns to-day from the Mint, as a usual on Tuesdays. The coinage of the Mint for the he three weeks of June reaches \$6,750,000, including essa one of silver.

The Galena Road earnings for the third week of Inne are very large, as were those of the first two

They reach	20,668

The annexed figures are from the annual Cleveland and Toledo Railroad Compan	report of y, for the

Expenses were 461 P cent. Reduction of floating debt. \$90,000 Contribution to Stoking Fund 24,000 Cach on hand. 14 000

#138 600 ring the year, a fact which cannot be said of any pre-

vious year since the road was built. The read is represented as follows: Sended debt. \$3,800,420 Gapital meek. 5,500,812 The annual meeting of the stockholders of this Cour-

pany was held in Cleveland on the 19th. The followwere elected; John Gardiner, Norwalk; A. N. Ramedell, New-London, Conn.; Wm. M. Vermilye, N. Y.; G. Talbot Olyphant, N. Y.; Joseph Benjamin, Plizabeth, N. J.; Samuel M. Young, Toledo; John W. Sprague, Huron; James Mason, Cleveland; Joseph Lycan, Cleveland. At a subsequent meeting of the Board the following officers were redicated: John Gar-Gper, President: H. C. Luce, Treasurery L. D. Rucker.

Superintendent: E. Sheldon, Cashier and Paymaster. The Illinois Central earnings for June and the business of the Land Office will show no marked changes from June last year. The currency troubles, and the low prices of Corn in Chicago have had some influence upon the business and the latter cause had rended it necessary to reduce the rate of freight on that article in order to enable the farmer to move it to market. This Company has remitted the interest due in Loudon, and has the funds provided for the interest so the fall paid stock, due lat July.

The Seventh Ward Bank has declared its fifty-third dividend-5 per cent, payable July 1. The Panama Railroad Company has declared a semi-annual dividend of 6 per cent, payable on and after July 1. The transfer books are clo-ed, and will reopen on the merning of July 2. The Washington Marine Insurance Company, a semi-annual interest dividend of 34 per cent, payab e July 5. The Bank of Commerce in News. York, a semi-annual dividend of 3 per cent, payable

The business of the Clearing-House to-day was \$12,412,000. The reduction in the volume of business is fully shown by these figures. Last year at this time the daily average of the Clearing-House transactions was \$22,000,000 to \$23,000,000.

The annexed notice is interesting to the holders of

The annexed notice is interesting to the holders of Texan Indemnity Bonds.

Estract from a letter revired from the Secretary of the Treasury, water date Jane 11, 1851.

It being understood here that a portion of the Texan Indemnity Bonds, of which seem annual interest coupons become due on the 12 July proximo, have been fluoresed since that Starchaspased uncer thee notion of inour gents, and that another pertion remains in the Treasury of that Starch as possed uncer the duty of this Department to stop the payment of the coupons of both these postlines to stop the payment of the coupons of both these postlines. In order to disagnish them from such as have been taken from the short of the coupons of both these postlines are such as present and the starch of the coupons of the short of the short

The Indiana Loan Commissioners, who have held the bids made on Saturday under advisement, have today decided to reject all those under 874. The amount awarded is \$412,000, which, with the amount taken in Indiana at par, supplies the present wants of the State. The following are the successful bidders:

Hudson County Bank	Amount. \$12,000 50,000 50,000 20,000 20,000 100,000 100,000

The bids for the New-York 7 V cent loan of \$700,000 were opened to-day at Albany, and those accepted ranged, it is reported by telegraph, from 101 38-100 to 101 65-100. Of the loan, Messes. Thompson Brothers get half a million at 101 65-100, which they are offering in lots at 103.

It is understood that the Sacretary of the Treasury favors a popular issue of Treasury Notes to a large amount, as a means of supplying the financial wants of the Government, rather than a recourse to loans. He may not, however, consider this practicable. In the ne ntime a memorial is being circulated among the poneved men of Wall street for signatures, urging the Government to adopt the stock or bond system, rather than the issue of Treasury Notes. In regard to Mr. Thompson's financial scheme, he says in his Reporter:

The plan is similar to the Currency Department of the Bank of England. The proposed is ne of circulating notes, like the Bank of England notes, are to be based partly on specie and partly on Government stock, and to be convertible into specie on demand, at the option of the hold-r, as are the Bank of England notes. The Government to nake up any depreciation on the stocks, in case a sale becomes necessary to repland, on holding £14,00,000 sterling of consols, and £10,000, 00 specie, issues £24,000,000 of notes. Our plan is simply the same: The United States being the promiser in our case, instead of a Bank of England."

The Treasurer of Mass-chusetts advertises for proos is for a loan of \$1,600,000, in sums of \$100, \$500, and \$1,000, bearing 6 V cent interest.

Business at the Boston Stock Exchange shows no improvement, either in the extent of transactions or in the advance of prices. Some of the leading milroad shares have decime to the full amount of the dividend and the Maine, on a dividend of \$35 bas fallen of \$54; Worocster soils at 109} \$2 less than dividend on. The price of money is uncharged, and the amount of business is quite limited.

The Chicago Tribune says:

There is every reason to believe that, before the next killing and packing emon arrives, there will be a very great advance in the value of mess pork and hogs. The stock of mess pork on hand in this city is only 8,300 bbls. The stock in New-York is but a little over 8,300 bbls. The stock in New-York is but a little over 50,000 bbls. There is less pork in store generally through the North than usual, at this ime. A large portion of that packed last Winter was shipped to the South before the war broke out, the Rebels taking every procaution to supply themselves with food white they could. Our army now in the field and camp will need a large quantity of pork, and the supply will seen be found inadequate to the demand. So firally are helders convinced of this fact that they decline to sell now, and wait for the rise which they know must take place. It will be well for farmers throughout the Sane, and the West generally, to make their arrangements for fattering all the hogs they can get hold of this Fall. They will be almost certain to get a good price for the pork.

good price for the pork.

His relatives and friends, also the officers of the 25th Regiment, are respectfully invited to attend his functal from his late residence. No 160 Greens atreet, on Thursday afternoon at 2 o'clock. His recording will be conveyed to Green wood.

STEWART—In this city, on Menday, June 24, Sannel Westoott. con of Deborah and Hunting M. Stewart, agod 4 years and 7 months.

research.

STEPHENSON—In this city, on Monday, June 24, Enums, the beloved wife of James Stephenson, aged 24 years.

WELSH—In this city, on Sunday, June 25, Richard Welsh, in the 6th p age of bis equ. SUPPOSED BURGLARY .- Seven cupty jewelry cases

SUPPOSED BURGLARY.—Seven timply yearly task of various sizes, were found in the front area of house No. 24 Second street, eccupied by Mrs. Ann Freel. They had thekets up in them bearing the names of Thisary & Co., Bull Black & Co., and other Broadway jewelers, and are supposed to have contained jewelry stolen from some private dwelling.

SALES OF REAL ESTATE AT AUCTION.—June 25, 1951, by Adrian H. Muller, house and lot, north side 33d street, 172 feet cast of 10th avenue; \$2,600.

CITY ITEMS.

Honnies,-A book might be written on the hobbles of the last ten years. A friend of ours has a volume which he calls "Memorials of the Suspension of 1837." We looked into it the other day. It is pasted full of specimens of the vast spawn of shipplasters with which the country swarmed some twenty years ago. The nominal value of these once carrent rags would reach a good many dollars: but the book is a curiosity. Even now it is worth looking over. If it should be in existence two hundred years hence, and then be set up at anction for the curiosity hunters of that time to bi at, this pile of rag money would be considered cheap at a hundred per cent above par. There are ten-cent notes issued by the largest cities of the Union, and beside them are two-penny bills put forth by the corporation of "Troublesome Iron Works!" Phebus, what a name! The holder must have found it troublesome to realize on them. All the little storekeepers in all the little towns most baye issued their little notes. Shinplasters must have been the great hobby twenty years ago. It was long before our recollection; yet we have heard it intimated that the public rode that hobby to death. It was well they did, or he would have been the death of them. Like the last complet in the gravedigger's epitaph, they might have said—
"So since he is dead, let's rejulee at his fall.
For if he had lived he'd have buried as all."

The hobby of to-day is the Union Envelopes. Some one told us that about forty of these have been copyrighted, but this can only be the beginning-forty more will be similarly canonized. Every battle to come must be immortalized on the cover of your letter. Look at your pictorials, oh, ye of little faith, and imagine the end of this thing. Some collector of curiosities should make a book of these characteristic evidences of American enthusiasm. The Atlantic cable was a sham; not one of its discs is in kirculation. But this artistic furor is a reality, having broad foundations in an irrepressible pational patriotism. Such a book of envelopes will be a treasure even fifty years hence. O'd libraries rich bibliopoles, parvenu collectors, will measure purses to become its possessor. Will conturies give birth to such a swarm on such an occasion? In short, can there be another rebellion? This hobby, suddenly started, has been mounted by hundreds, who are lashing his sides, intent on a ride. He bears up manfully thus far, but hobbies do not live forever. Courteous reader, tell us what the next will be.

The Rev. Dr. Charin is to deliver a Fourth of July Oration at the Cooper Institute. The occasion will be diversified by the performance of the 7th Regiment Band, singing by glee clubs, &c. Mr. Havemeyer, ex-Mayor, will preside, assisted by eminent citizens. The proceeds will be given to the families of the vol-

AID THE VOLUNTEERS .- Mr. D. D. Griswold will give a grand vocal and instrumental concert, in aid of the volunteer fund of the town of Kye and vicinity. under the sanction and potronage of the Union Defense Committee, to-morrow evening, at the Methodist Church, Portchester.

PRESENTATION OF A SWORD TO DR. HANILTON .-An unexpected compliment was paid to Dr. Frank Hamilton, the able Surgeon of the 31st Regiment, just previous to the departure of that corps, on Monday last. As the regimental line was formed, a Committee of ladies presented the Surgeon with an elegant sword and sash, the gift of a few ladies, personal and grateful friends of the doctor. The present was almost an extemporaneous gift, the idea having been suggested but a few hours previous; consequently, no formal speeches were made, either by the Committee in the presentation or by the doctor in acknowledgment of the appropriate offering.

A number of the students in the Brooklyn Medical School, wherein Dr. Hamilton was lately Professor of Surgery, also presented him a handsome pistol and holster, accompanied by a landatory letter, which was received with thanks, and replied to by the recipient in a manly and sensible note, wherein he said that he hoped he "should have no occasion to use the pistol, as his mission among the soldiers was one of peace, and not of war;" but assuring the students that be should wear the weapon in kind remembrance of those who had given it.

CLEANING THE STREETS,-A general order has just been issued by John A. Kennedy, esq., Superintendent of Police, requiring the members of the police force to report regularly the manner in which the streets are cleaned or not cleaned under the Hackley contract. This is the plan we have frequently advocated, and it is the only one by which we can know whether we have been cheated by the contractor, or not. With the police as sanitary inspectors, we can dispense with the 44 Health Wardens and assistants, and the cloud of Street Inspectors, thus saving the city a world of imposition, and hard upon a hundred thousand dollars a year in salaries.

RELIEF TO THE FAMILIES OF SOLDIERS. - During the month of May, 6,746 families of soldiers were provided with assistance by the Sub-Committee of the Union Defense Committee. The maximum amount of relief given in ordinary cases is \$2 per week to the head of a family, \$1 for the oldest child, and 50 cents for each additional child. Great care is now exercised in the distribution of this fund. The cases are thoroughly investigated, and the order for relief is signed by all the members of the Sub-Committee.

EOWING MATCH.-A rowing match will take place on Wednesday, on the Hudson River, for single scullboats. The contestants will start from the vicinity of Amos street, and row to Hoboken, near the Elysian Fields; from which stake-boat they will row to the Atlantic Hotel, and from thence letarn to the Judge's boat. The boats Young Harry, Laura Keene, and Mary App, are now entered, and it is supposed that a number of others will also enter the lists. The distance will be five miles, and the start will be made at 3 o'clock, p. m.

THE NATIONAL ANTHEN, -- The Committee of Adiudication on the efforts of the 1,150 competitors for the \$500 prize for the best National Anthem, are now at work. It appears that the tone of most of the produc tions are religious. It is also stated that none of the great poets of the country have entered the list.

THACES OF TARTARS IN PERU.-Prof. A. G. Alexander, at the recent meeting of the Ethnological So ciety of New-York, read a paper which he had prepared for the purpose of demonstrating the Quichua language of Peru to be a member of the Tartar family. He rested his proof chiefly on grammatical identities, since even when Tartar dialects are geographically contiguous, their lexicographic roots are widely dif-It is a singular fact that out of the hoet of American

anguages, the Quichua, entreached in the leftiest portion of the Andes, should be the only one that has a perfect title to be classed as a member of a lineual family of the Old World, as all the others, without exception, are either pure Algonquin, or widely divided between different families.

The Quichua stands alone as a Tartar dialect in the New World, just as the Basque is the only Algonquin falect in the Old. The bearings which such discoveries have on eth-

cology, is highly important; for the principles upon which languages are founded are connected with variety of race, and where we find a perfect resemblance in words, we expect one in features and actions. COMPLAINT AGAINST STEAMBOATS.

To the Fiction of The N. Y. Tribuna

Sir: In time of war, perhaps you do not notice home affairs; however, I will say, as briefly as possible, 't were best not entirely to overlook them. The steam-ers Aurora and Metamora make trips up the Hudson together, every Sunday morning; there is no other together, every Sunday morning; there is no other means of conveyance, and many in this city go up on that day. Being in opposition, they both left this morning before the regular, time, and by so doing a number were left behind, greatly to their disappointment. I would ask if such proceedings are to be tolerated?

New York, June 23, 1261.

NEW-YORK YOUNG MEN'S CHRISTIAN ASSOCIATION. The monthly meeting of this Association was held on Monday evening, at which a large audience assembled. The meeting was opened with devotional services, conducted by the President, Mr. P. Harwood Vernon. Mr. S. W. Stebbins was then introduced and made an address on the subject of personal effort. The Rev. Mr. Bush of the Tract Society made a brief speech. The Rev. S. H. Tyng, jr., also made an address in which he very happily illustrated the importance of the work undertaken by the Association among the soldiers. The Rev. P. C. Backley, a chaplain in Sickles' Brigade, made on interesting speech, relating many affecting incidents of the work of God in his camp. H. Stuart, President of the Philadelphia Association, made a brief appeal for aid in working among the soldiers, contrasting the unanimity with which the nation and sprung to arms with the baselinde displayed by the Church in working for Christ. The services, which were of an interesting character, closed at a late hour by singing the "Star-Scangled Banner," in the chorns of which the andience joined with all the enthusiasm of Young America.

enthusiasm of Young America.

THE CASE OF MULLICAS.-The judgment in the ase of Billy Mulligan convicted of an assault with a deadly weapon, &c., and sentenced and sent to Sing Sing, was reversed by the Supreme Court, on the ground that the prisoner could not be convicted of an assault with a deadly weapon, for merely exhibiting a weapon, and threatening, in a certain contingency, to use it. To establish such a charge, or the intent to kill, an actual assault must be first proved. The case was carried to the Court of Appeals, which, on Friday, unanimously confirmed the decision of the court below, upon a mere statement of the case, without waiting to hear Mr. Brady's argument, as counsel for the prisoner.

BURNED TO DEATH.—A young woman named Margaret Bashford, who resided in Avenue A, was berned to death on M usby night at No. 313 First avenue. She was looking at some pictures in a book, when a fluid lamp, which she was using, stiddenly exploded, sating fire to her dress. She ran into the areas cereaming, and the fismes were extinuished by a person who was passing, but not until she was fatally arrand. She was steaded by a physician until 3 of clock in the menting, when she expited. An inquest will be held upon the body. Accident to a Voluntuen. John McGrath, & ienteer in Col. Marphy's regiment, white attempting last night jump from the ferry boat to the bridge, foot of Touch street, at River, missed his arm, and tell herween the boat and bridge, was taken up severely injured, and conveyed to the New-ca Hospital.

For Summer wear there is nothing more elegant, respectable, and durable than a BLACK ALFACA SUIT.

The largest stock of ALFACA CONTS, PANTS, and VESTS in the city may be found at Exames, Nos. 66 and 48 Futton-st. Complete Suits 36.

U. S. DISTRICT ATTORNEY'S OFFICE-JONE 15. THE PRIVATEER SAVANSAH-ARRIVAL OF HER CREW AT THIS PORT.

LAW INTELLIGENCE.

The revenue cutter Harriet Lone, Capt. Faunce, arrived at this port on Tuesday morning, having on board the officers and crew of the privateer S vannah. Within half an hour after their arrival, District-Attorney Smith had caused the necessary affidavit to be made, and obtained a warrant from United States Commissioner Henry for their arrest. The Captain of the Joseph is held by the District-Attorney as a witness against them. Knickerbocker, the semman who claims to have been impressed in the service of the privateer, is also held as a witness. The District-Attorney will immediately lay the case before the Grand Jury, which has been kept in session for the purpose, and, upon the indictment being found, will have the day of trial fixed immediately upon their arraignment. Upon receiving the warrant, U. S. Mershal Murray, with a number of his officers, proceeded to the Harriet Lane and arrested the prisoners. During the passage, the crew of the Savannah were kept in irons, but the officers were allowed by Capt. Faunce to take their meals at his

following is a list of the prisoners: 1. J. Hamilton Baker, Captain. 2. John Harleston, 1st Officer. 3. C. S. Passailargue, Purser. 4. Henry Howard, Sailing Master.

Jos. Croz cel Carno, Sieward.
 Handy Oman, Cook.

7. Patrick Duily.

UNITED STATES DISTRICT COURT, June 25, 1861-Before Judge Burrs. THE PRIZE SCHOONER LINCHBURG.

This is a tibel to condemn the schooner as a prize, for seeking to evade the blockade. Mr. Burrill sppcared for two parts of the cargo and or the owners of the vessel.

The United States vs. The Schooner Lynchburg.

Assistant District-Attorney Woodford desired to amend the libel to the effect that at the time the voses! was taken, she had notice of the blockade.

Mr. Burrill said that the Court had so decided yesterday and without his giving any consent; the matter should be left in the hands of the Court. The motion was granted.

THE PRIZE BARK WINIFRED. In this case Mr. Edwards said be appeared for the owners and the cargo, and he desired the case to be

heard as soon as possible. THE PHIVATEER SAVANNAH AND SLAVER SIGHTINGALE CONDEMNED. District-Attorney E. D. Smith said he desired to

make the notices of sale in the cases of the privateer Savannah and slaver Nightingale shorter than usual, as they were vessels of such a size and build as the Government would be desirous of parchasing for im-The Judge said that if no one appeared for the

owners or claimants, an order for sale could be taken for eix days. He then directed an order to be entered demning both vessels, and ordering them to be sold in six days for and on account of the captors. THE PRIZE BARK HIAWATHA.

The case of the Hinwatha, which was on trial on

Monday, was then continued. The evidence taken by the Prize Commissioners in preparatorio having all been read, Mr. We dierd submitted to the Court several letters bearing upon the case. After reading some further documentary evidence.

the Court adjourned till to-morrow, when the argument on the questions of law will be beard. THE WITNESS KNICKERBOCKER. Mr. Ethan Allen, Assistant District-Attorney, moved

that Keickerbocker (one of the crew of the privateer Savannah) be comulated as a witness for the United The motion was granted. Knickerbocker is a native of Dutchess County, where his parents reside. He went to Charleston, S. C., in November last, to be employed as a livery stable man by the proprietor of the Mills House. He was subsequently impressed in the service of the Savannah. His father, a respectable looking gentleman, called at the District-Attorney's office to-day, and confirmed his son's statements.

SUPREME COURT—Cracurr—June 24.

Benjamin Bowman agt, the Mayor, &c., of New York.

The plaintiff sued the city, claiming \$10,000 damages for a broken knee-pan. It speeds that the plaintiff, on the 4th of March, itild, was crossing Broadway at the corner of Fulton street, when he slipped upon an iron cover inserted in the pavement at that place as a cover to a sever of water pipes. The cover was worn perfectly smooth and was slippery, when wet, or when covered with snow, as at the time of the secident. The plaintiff is falling frectured his knee-pain in two piaces, and has been lame over since. He claimed that the city should compensate him for his insury and suffering the control of the insury and suffering the cover was the cover of the insury and suffering the cover street.

been lame ever since. He claimed that the city should compense him for his injury and softering.

At the close of the evidence the counsel for the defendants moved for a non-suit; the Circuit Judge g anted the motion, statism that, while he was very sery for the plaintiff, yet the Corporation of New-York could not be held liable for every secucion that beful persons in the streets of the city that if the payment was slippery, it should induce greater earlies on the part of passers by that the competition of the country is not that to competite Corporation, whelever a piece of iron became slippery, to take it up, was what the law could not do. Complaint dismissed.

J. Francis Walton for plaintiff; W. C. Trull and H. H. Anderson for the Corporation.

Disasters, &c.

Barrinozz, June 2: —The ship Dasaway, from London for Calcotta (not from Bartimore as previously reported by telegraph), has put in here in distress, leaking about a fifteen minute speci per hour in a see way. The captain found that in his judgment it would be impossible to complete bis voyage in sweety, and selected to retarm here, wherehis repairs cound be made w. A common, rather than going into 3th Thomas or other expensive ports. She will have to be lightered of about 200 tune cargo from tweyors on board.

[By settler to Elizard Walt.

Swan Peint. A steaming and lighter have gone down with suryers on band.

Its jet or to Eliwood Walter, eag. Sec. B'd of Unders're.

Its Sytaxicum Zetto, the loss of which has already been
noticed, grounded at 40 minutes par 10 on the morning of the
limite, on a neef of rocks at Point Morant; her estjanes were
immediately reversed, and every effort was made to get her off,
but attempts proved uselines. The capitals then sent the made to
Klapston for assistance, when the regal mild scamer Wye came
down to the point, and overything that could be mored was
placed on board of her and some toy to Kingston for the scoonus of
the Undersystem. The loss of this steamer will only embarrant
the operations of the line temporally, as another vessed will
shortly be sent over from the other side to sapply her place.

May St, Cope Autonio bearing S. S. W 30 miles, sohr. Oread (where, of Previncetown), Young 5 months out, all well, had 150 bbls oil.
